

# Brass Padlocks

## Yale, inspired by the past, is creating the future of security.

With 180 years of manufacturing expertise, we are introducing our padlocks with an exclusive Yale design and tested to EN12320:2012 standard for added security and reassurance, built with you in mind.

Designed for indoor usage

Suitable for ladders, tool box or other belongings you want to keep safe and secure indoors. Yale takes care of your possessions; you take care of the rest.

Setting up quality standards

Tested to EN12320:2012 to simulate forms of attack such as cutting, twisting and pulling of shackle. Plus tested up to 96 hours for corrosion resistance to withstand different weather conditions for total peace of mind.

Enhanced security

Even those DIY tools in your shed can be kept safe and secure, with a hardened steel shackle and double locking for added security, built with you in mind.

Exclusive Yale design

Available in different sizes with long or standard shackle for your every security need.

## A journey towards more sustainable packaging

We've been working with more sustainable materials and reducing the size of our packaging to lower our environmental footprint by 10%. Enabling us to improve the sustainability of the Yale Padlock packaging range.
